Career Grades are a tool to help make comparisons between occupations. Each occupation is assigned a letter grade from A+ to F based on its outlook over the next decade. Grades are based on a combination of projected total job openings, projected percent growth, and current average wages. Occupations with a grade of A or A+ have above average results in at least two of the three variables, while occupations with a grade of B or B+ have above average results in at least one of the three variables.

The South Central region is projected to have nearly 7,500 annual job openings through 2032. The vast majority (79%) of these openings are in A, B, and C grade occupations. In general, higher graded occupations have higher wages and growth rates. Grade A occupations earn an average wage that is 63 percent higher than the average wage for all occupations in the region in 2023 (\$45,616).

Annual Job Openings and Wages by Career Grades

Grade A

579 Job Openings
\$74,236 Average Wage

Grade B

3,497 Job Openings
\$46,900 Average Wage

Grade C

1,811 Job Openings
\$38,280 Average Wage
